Work experience

Spinnin' Records, Hilversum, The Netherlands (dance label, 2007-current)

- Set up newsletter system for niche market (separate mails for house, trance, techno, trance audience)
- Creating mock-ups/UI design/layout for new Spinnin' Records website
- Creating e-flyers with links to iTunes store which are send out to a database of +2000 members
- Currently setting up a branded channel on YouTube, in which we can add links to the iTunes store, getting revenue shares through adverts in our videos
- Creating CD singles artwork
- Client list: iTunes, Beatport, Nokia, MSN, YouTube

MTV Networks, London, United Kingdom (Broadcaster, 2006)

- For the Europe Music Awards 2006 I've updated artist bio's on Justin Timberlake, Rihanna, Robbie Williams during live show, organized and checked translations in Italian, German, Dutch, and English. I've checked browser compatibility on Mozilla Firefox, Internet Explorer, Opera and Safari
- Project leader of MTV Movies sites Europe, arranging materials from the local offices, translations, images, text, local language trailers, competitions, amend and publish them for all sites in Pan European CMS system. Competitions like James Bond, Casino Royale, Borat and other big blockbusters
- Creating flash banners for Talent & Music Department

- XML & Navigation, assistant project leader for Nickelodeon Barnyard project, test and debugging website, adding navigation buttons
- Voice-overs for MTV commercial
- Tape-logging interview of Juliette & The Licks for Metro Newspaper

Revolution Digital, London, United Kingdom (audio mastering studio, 2006)

- Create design for web site ID Interactive in New York (Mother Company of Revolution Digital) & development of Flash menu/CSS/HTML pages
- Editing video in Final Cut Pro for Sony Music Entertainment
- Creating mp3 player Yeah Yeah Yeah's for Universal Music (Flash Actionsript)
- Editing mobile phone images for Juvenile mobile player through an Actions Batch in Photoshop

MTV Networks, Naarden-Bussum, The Netherlands (Music TV Channel)

- SMS photo chat application, filtering text messages, trigger target audience to send text messages by asking them targeted questions
- Assisting with TV recording 'Rate That VJ', a talent search show for VJ's by making pictures of candidates, prepare them for the actual shoot, guiding them afterwards
- Internet chat, filtering curse words, checking for illegal activity on the site and report this to a member of staff

Anastacia fan site (volunteer)

How I got the role at MTV

I was hosting a fan site for the artist Anastacia on <http://www.anastacia-newkirk.com> which generated 40.000 hits per day on site (through previews I received by SonyBMG). I've organised activities for fans such as fan days, meet and greets, tickets for TV shows (BBC 'Top Of The Pops', 'TV Total' Germany, 'Tros TV Show NL') & in co-operation with Sony Music arranged a competition for 2 fans to sing with Anastacia on stage in Ahoy Rotterdam during her 'Live At Last' tour in 2004.

Interests

Web Design / Web Development (front-end) / Photo-editing / Music (Audio) / Dancing / Movies / Travelling / Writing
